- h) The scholarship recipient must inform ICETEX, with due notice, of any decision to withdraw from the scholarship before the disbursement corresponding to the accrued quarterly maintenance allowance is made. - i) To submit within the established deadlines all documents required by ICETEX for scholarship renewal and disbursement processes.

Likewise, the scholarship holder must inform ICETEX of any change in marital status during the validity of the scholarship.

 - In case of visa cancellation or expiration
 - If deportation or expulsion from the country is ordered
- g) In the event of non-compliance with the obligations assumed, abandonment of the program, loss of the scholarship for reasons attributable to the scholarship holder, misuse of the Courtesy Visa, engagement in unauthorized work activities, obtaining immigration benefits unrelated to the scholarship, or irregular stay in Colombian territory, ICETEX may terminate the scholarship immediately.

Likewise, the scholarship holder must return to their country of origin or residence, in accordance with the applicable immigration regulations and the commitments undertaken with the Government of the Republic of Colombia.

Finally, the scholarship holder may not apply for a residence visa in Colombia during the two (2) years following the completion of the scholarship, in accordance with the purpose of the Beca Colombia Program, which seeks to train foreign citizens in Colombian Higher Education Institutions so that they may apply the knowledge acquired in their countries of origin or residence, thereby contributing to the development of their communities.

❖ GROUNDS FOR SCHOLARSHIP SUSPENSION

ICETEX may temporarily or definitively suspend the disbursements and the scholarship granted when the scholarship holder incurs in any of the following situations

Temporary Suspension:

Temporary suspension of the scholarship may be granted in the following cases, for a maximum period of one academic semester (6 months):

- a) Due to illness diagnosed by a licensed physician and certified by a legally authorized health institution in Colombia, which generates physical or mental incapacity that temporarily prevents the continuation of academic activities.
- b) Limitations of the health insurance policy, when the medical condition is not covered by the insurance provided by ICETEX.

Note: Any of the situations described above must be reported simultaneously to the Higher Education Institution and to ICETEX within five (5) business days following the issuance of the supporting certification.

Failure to report within the required time frame will invalidate the request for suspension, and the scholarship holder must continue fulfilling academic obligations and remain in the country until the corresponding academic period ends.

Definitive Suspension:

ICETEX may definitively suspend the scholarship or deny renewal in any of the following cases:

- Failure to comply with the academic obligations established in these rules.
- Abandonment of studies, as defined in the rules of the Beca Colombia Program.
- Failure to obtain the Courtesy Visa required to pursue an in-person academic program.
- Expulsion from the Higher Education Institution for violation of institutional regulations.
- Failure to maintain the required academic GPA.
- Proven alteration, falsification, or concealment of information or documents in order to obtain the scholarship.
- Failure to submit required academic or administrative documents within the established deadlines.
- Medical incapacity exceeding one academic semester (6 months).
- Proven non-compliance with any legal, academic, or special obligations of the scholarship holder.
- At the express request of the scholarship holder, duly justified and supported with the corresponding documentation.
- Non-compliance with immigration obligations, misuse of the Courtesy Visa, engagement in unauthorized work activities, or stay in Colombia for purposes different from those of the

scholarship.

Note: Any request for definitive suspension shall be decided by the International Portfolio Committee of ICETEX, and the scholarship holder must comply with the academic, legal, and special obligations until the decision issued by this Committee is formally notified.

❖ LIVING ALLOWANCE DISBURSEMENT:

The scholarship holder must have sufficient financial support to cover at least three (3) months of living expenses (approximately USD 700 per month, since the living allowance will be disbursed on a quarterly basis in arrears. The disbursement of the living allowance will be subject to prior compliance with the following requirements:

- i) Obtaining the Foreigner Identification Card (Cédula de Extranjería);
- ii) Opening a savings account in Colombia at a financial institution located in the city where the scholarship holder will carry out the academic program;
- iii) Submission to ICETEX of the bank certificate showing the account number and indicating that the identification document associated with the account is the Foreigner Identification Card;
- iv) Submission of the residential address and mobile phone number in Colombia.

The disbursement will be processed once the required documents are received, and the scholarship holder will receive the funds within a maximum of six (6) weeks from the date on which the bank certificate and the Foreigner Identification Card are submitted.

Bank accounts may not be opened using a passport, and the corresponding payment will not be made until the scholarship holder submits the bank certificate showing the Foreigner Identification Card as the identification document.

Once the scholarship holder has obtained this document, they must send to the Office of International Relations of ICETEX, via email to beca_colombia@icetex.gov.co, the certification issued by the financial institution showing the account number and the identification number corresponding to the Foreigner Identification Card.

The disbursement will be made according to the official start date of the academic program certified by the Higher Education Institution in the admission letter, and not according to the date of entry into Colombian territory.

This means that if the scholarship holder enters the country before the official start date of the program, the allowance will only be recognized from the academic start date certified by the institution.

The allowance will be disbursed on a quarterly basis under the modality of payment in arrears. This means that payments will be made at the end of each three-month academic period, provided that the scholarship holder submits the experience report reflecting academic progress, personal experience, and social contribution activities, together with the required signatures, in accordance with the methodology and deadlines established by ICETEX.

For example, the allowance corresponding to January, February, and March will be paid at the beginning of April, subject to verification of compliance with the established requirements.

Migration monitoring and stay in Colombian territory

The granting and continuation of living allowance disbursements will be strictly conditioned on the scholarship holder's presence in Colombian territory during the corresponding academic period.

The scholarship holder must inform and obtain prior authorization from both the Higher Education Institution and ICETEX in case of temporary travel outside the country during the validity of the scholarship.

Leaving Colombian territory without prior authorization will constitute a breach of the obligations assumed and may result in the immediate and definitive suspension of the scholarship and the corresponding payments.

ICETEX may carry out periodic verifications, before or after disbursement, including the request and validation of the Migration Movement Certificate before the competent authority, in order to verify the scholarship holder's presence in the country and compliance with the scholarship conditions.

❖ MONITORING AND FOLLOW-UP:

The monitoring and follow-up of foreign scholarship holders will be carried out by ICETEX, through the Office of International Relations, which will accompany the scholarship holders during their academic experience and will conduct the necessary follow-up to verify compliance with the commitments established in this call.

Based on this monitoring, ICETEX may determine the continuation, suspension, or termination of the scholarship granted, in accordance with the conditions established in the present rules and the applicable institutional regulations.
